

Introduction

Have you ever heard of OpenStreetMap? It's a free and open-source map of the world, created and maintained by volunteers. The goal of OpenStreetMap is to create a map of the world that is accurate, up-to-date, and accessible to everyone.

StreetComplete is a mobile app for Android that makes it easy for anyone to contribute to OpenStreetMap. With StreetComplete, you can easily add missing information to the map, such as missing street names or missing bus stops.

StreetComplete is easy to use, even if you've never used OpenStreetMap before. Simply download the app from the Google Play Store, and start contributing right away.

Here are some resources to help you get started with StreetComplete and OpenStreetMap:

- Learn more about OpenStreetMap on the OpenStreetMap website
- Download the app from the Google Play Store: [\[link\]](#)
- Learn more about the app on the StreetComplete website: [\[link\]](#)
- Check out the StreetComplete user manual: [\[link\]](#)
- Join the StreetComplete community on Telegram: [\[link\]](#)

Why OpenStreetMap is Good for Everyone

By contributing to OpenStreetMap, you're helping to create a map that is accurate, up-to-date, and accessible to everyone. This is important because accurate and up-to-date maps are essential for navigation, emergency services, and other critical applications. Additionally, OpenStreetMap is a free and open-source map, which means that it can be used and adapted by anyone for any purpose. This makes it a valuable resource for individuals, businesses, and organizations of all sizes. Furthermore, OpenStreetMap is a community-

driven project, so the more people who contribute, the better the map becomes. Your contributions, no matter how small, can help improve the map for yourself, your community, and people all around the world.

Features

StreetComplete is packed with features to help you make valuable contributions to OpenStreetMap. Some of the features include:

- A simple and intuitive user interface
- A wide range of mapping tasks to choose from
- The ability to add photos and notes to your contributions
- Automatic validation of your contributions
- Offline support for mapping in areas with poor connectivity

With StreetComplete, you can easily add missing information to the map, such as missing street names or missing bus stops. You can also take photos of the area you're mapping and add them to your contributions for added context.

So, download the app now and start making a difference with StreetComplete.
